

Faculty Oversight Committee

The names/titles and departments of these group members are from 2010. Some may have changed.

The Faculty Oversight Committee is a school-based faculty committee supporting the Operational Excellence effort. Chaired by Sam Hawgood, faculty from every school at UCSF are represented. Designated advisors from these faculty provide input for the OE Work Groups. The committee ensures that the needs of the faculty are met in OE's process improvements and make recommendations that are heard at the OECC.
